American Compliance Systems and Ultimate Risk Services Opens New Florida Office

Norristown, PA, March 8, 2019

The company announces today a new remote office opening the beginning of March 2019 in Ormond Beach, Florida. This office will be a full supplier of all ACS/URS risk mitigation solutions and services. Two long term members of the company will be the local management. Karen Spottiswood will be the Client Service Technical Director and Jack Spottiswood will be the Risk Mitigation Area Manager. “Both are seasoned safety professionals and will bring the same high level of client support to the Florida market.” said Robert Pignataro, CEO.

Our goal is to concentrate and help companies in the Jacksonville and Orlando markets mitigate workplace safety and cyber risk. We feel these markets provide a great opportunity like the Mid-Atlantic region has for our company for over 25 years, says Frank Fazio the head of sales and marketing.

Bob Plett, COO, had this to say: “Jack and Karen, a husband & wife team, have been an integral part of ACS’s success over the last 20 years. Karen will remain as our Corporate Client Service Technical Director for our entire client base, while Jack will focus on managing both our existing and new client needs in the Southeastern US.”

About Ultimate Risk Services

Ultimate Risk Services content is provided by American Compliance Systems (ACS). By combining subject matter expertise (SME) with technology we created innovative Cloud Based Risk Mitigation Solutions[®] in Workplace Safety, Cybersecurity, Industrial Hygiene and Employment Practices. These four practice areas all include our 5 Step Risk Mitigation Solution[®]. These solutions provide the same level of resources that were only available at high cost to the few and gives a turnkey cloud-based solution that is comprehensive and affordable for the many. In addition, URS also provides an ongoing way to continually measure that actions are being taken on a consistent basis to avoid exposures, problems, and penalties cited by many company owners.

About ACS

ACS, headquartered in suburban Philadelphia, with clients throughout the U.S., provides products and services to help businesses of all sizes manage workplace risk and maintain regulatory compliance. For more than 25 years ACS has received recognition as a leader in providing outsourced Workplace Safety and Cybersecurity Risk Mitigation solutions. 1000’s of companies in Manufacturing, Finance, Retail, Construction, Wholesale, Automotive, Retail, Transportation, Entertainment, Healthcare, etc. have benefited from our solutions.
